INTRODUCTION

In this study you will find a presentation of the FINA international Open Water Swimming events (World Championships, World Cups, Grand Prix) with the standings of the first three places at all events followed by several classifications which are listed either by the number of titles or medals by swimmer or National Federation.

These standings only have a historical aim and not any sporting significance. Indeed, the comparison between the achievements of swimmers of different generations is always unfair for several reasons:

1. The period of time with different calendars
2. The evolution of the programme.

This edition may manifest errors; we hope that this will be remedied for the next edition with the assistance of our readers. The FINA Office would be happy to receive any amendments or notification of inaccuracies concerning this brochure.

LIST OF ABBREVIATIONS

The abbreviations used for each National Federation are included at the end of this volume. However, for Germany during the period of 1986-1991, the abbreviation FRG was used for the Federal Republic. The acronym TCH was used for Czechoslovakia (CZE+SVK). Russia was part of USSR until 1991.

WORLD CHAMPIONSHIPS (1991-2019)

Since 1991, Open Water Swimming (or Long Distance Swimming) appeared on the programme of the general FINA World Championships with the other FINA disciplines. Between 2000 and 2010, one edition of FINA World Open Water Swimming Championships (*) was organised between each FINA World Championships. In 2012, the first World Junior Open Water Swimming Championships was held in Welland (Ont.), Canada from August 16-19.
