**PRESIDENT'S MESSAGE**  
**World Aquatics Championships – Singapore 2025**

I am delighted to welcome you to Singapore for the 22nd edition of the World Aquatics Championships.

Renowned for its vibrant beauty and deep connection to water, Singapore provides an ideal setting for aquatic sports, with pristine seas, sandy beaches, and world-class facilities.

The world's finest swimmers, divers, water polo players, artistic swimmers, open water swimmers, and high divers will converge here, setting the stage for extraordinary performances and historic achievements.

Singapore's passion for elite aquatics was on full display as recently as last year during the 2024 World Aquatics Swimming World Cup final. With close cooperation between the Singapore Swimming Association and Sport Singapore, we are set to deliver one of the all-time great World Aquatics Championships.

With a distinguished history of hosting 27 successful World Aquatics events in swimming, diving, water polo, artistic swimming, and open water swimming, Singapore has proven itself an exceptional host.

Following the captivating World Aquatics Championships in Doha and the Paris Olympic Games, interest and performance levels in aquatic sports have reached unprecedented heights. I am confident that passionate crowds will gather to cheer on more than 2,500 world-class athletes from over 200 countries competing across six sports in Singapore.

I want to sincerely thank our partners, staff, officials, and volunteers for their hard work and dedication in making this event possible. I have no doubt these World Aquatics Championships will be remembered for many years.

I invite you to join me in celebrating the incredible athletic performances and to take time to enjoy Singapore's vibrant culture and renowned hospitality.

To the athletes, we extend our best wishes for success in your competitions. Rest assured, we will be cheering you on from the stands and striving to provide the world-class conditions your dedication and talent deserve.

**WELCOME MESSAGE**  
**World Aquatics Championships – Singapore 2025**

Welcome to Singapore for the World Aquatics Championships 2025! As the first Southeast Asian nation to host this prestigious event, we are honoured to provide a stage for the world's best aquatic talents. Hosting this competition is especially significant as it coincides with Singapore's SG60 celebrations— marking 60 years of our maritime nation's independence.

So, this is more than just a sporting event; it is also a national celebration, and we invite you to join in the festivities happening alongside the competition. Following the elite Championships, the excitement continues as we expect to welcome about 7,000 competitors aged 25 and above for the World Aquatics Masters Championships.

Beyond the competitive action in the venues, athletes and visitors to the Championships can look forward to an exciting line-up of activities for all ages. From mobile roadshows and sport try-outs to sustainability initiatives, there is something for everyone to enjoy and be part of this extraordinary occasion.

Whether you are a competing athlete or an enthusiastic fan, we are committed to delivering an enjoyable experience. We hope that the energy, passion and spirit of the competition will create lasting memories for all.

Our team has been working hard behind the scenes with our partners, and we are excited to welcome all of you. To all athletes, we wish you all the very best in your competitions and a memorable stay in Singapore.

### **Appeals**

#### Appeal Procedure

An appeal must be submitted on the official World Aquatics appeal form, which can be found on the World Aquatics website and in venue.

- The Appeal Form must be submitted in accordance with the following timelines:
  - Diving and High Diving: an oral complaint may be made by the Athlete, or on behalf of the Athlete by a team official, to a referee, immediately after the execution of a dive, a round of dives, or a section of the competition. If the complaint is not accepted by the referee, the formal appeal must be submitted on the Appeal Form within thirty (30) minutes of the session's completion.
  
- The following can be appealed in Diving and High Diving:
  - A referee's perceived failure to observe the appropriate rules and regulations of the competition.
  - Any decision affected by unforeseen or dangerous conditions that are likely to have impacted the competitor (including, but not limited to, weather conditions, sudden and drastic noise increases and blinding camera flashes).

The appeal must be submitted to the designated World Aquatics representative, who shall be identified at the beginning of the applicable competition. The appeal shall only be considered complete if it is accompanied by a deposit of five hundred (500) United States dollars (or an equivalent amount in the applicable local currency).

The World Aquatics Representative will present the appeal to the Chair of the Jury of Appeal, who will review the appeal and determine its validity. The Chair shall determine the validity as soon as reasonably possible following the appeal's submission.

If the Chair deems the appeal to be invalid, pursuant to the criteria in World Aquatics Competition Regulations, Part One - Section 14, the deposit shall be forfeited. If the appeal is deemed to be valid, the Chair shall initiate a review by the Jury of Appeal which shall render a final decision on the appeal as soon as reasonably practical. The Chair's decision regarding validity is final.

The Jury of Appeal may consult video footage, documents and witnesses when making its decision, and may additionally choose to consult any other potentially impacted party, in person or in writing.

Decisions of referees shall be afforded a significant degree of deference. The Jury of Appeal shall not substitute its view of the appealed matter for that of the referee unless the appellant presents clear evidence that the referee's decision was made arbitrarily, irrationally, or in abuse of the discretion afforded to the referee.

If the Jury rules in favour of the appealing party, the deposit shall be returned to the appealing party, and the ensuing course of action shall be decided on a case-by-case basis.

If the Jury rules against the appealing party, the deposit shall be forfeited.

The decision of the Jury is final.

All appeals at the World Aquatics Championships shall follow the [World Aquatics Competition Regulations](#), Part One – Section 13 and 14.

## **Competition Format**

The following events are contested:

- Men/Women 1m Springboard – Preliminary and Final rounds
- Men/Women 3m Springboard – Preliminary, Semifinal and Final rounds

Medal ceremonies will be held for all events following the final.

## **Competition Procedures**

### Team arrival at the venue

Teams will be dropped off near the dedicated Athletes' Entrance. Athletes and team officials must wear their accreditation card in order to access the competition venue. Without accreditation card, access will not be granted. Please ensure that accreditation cards are worn at all times.

#### Accreditations

All athletes must present their accreditation when checking in at the Call Room prior to their event. A World Aquatics Technical Official will verify the athletes' identity and collect their accreditation. The accreditation will then be taken to the Doping Control Notification Table, where athletes can collect the accreditation at the end of their event.

#### Field of Play Protocol and Access Control

Clean Field of Play policy will be implemented during the competition. For this reason, only the staff and officials integral to the operation of the event will be permitted on or around the Field of Play. Similarly, no personal or non-essential equipment will be permitted on the pool deck during the competition.

All athletes and team officials are asked to respect the need for a clear deck policy during the competition by ensuring only competing athletes are on the Field of Play. Access to the Field of Play will be strictly limited to persons with the correct accreditation, hence the athletes and the team officials are required to wear their accreditation card at all times where appropriate.

#### Identification

All competitors are required to participate in the athletes' parade and introduction prior to the competition. Competitors will be escorted from the Call Room to the Field of Play where they will be introduced by name and nations. Detailed instructions of the Sport Presentation procedures will be provided at the Team Leader Meeting.

#### Submission of the Dive Sheets

The Water Sports Manager platform will be used to submit online dive sheets. Only one person per National Federation will get credentials to submit dive sheets electronically on the Dive Sheets Manager.

World Aquatics staff will reach out to each Federation to obtain the contact responsible for the dive sheets. The designated person will receive an email from [no-reply@st-software.com](mailto:no-reply@st-software.com) to log in on the website. They will then have the view of each event to enter their dive sheets. They will only see divers from their own National Federation entered in each event.

A complete list of dives for each competitor must be submitted 24 hours prior to the commencement of their preliminary event session, or final session if the event is a direct final. Each event will then be open until 24 hours before the Preliminaries or direct Finals as per the World Aquatics Competition Regulations.

All phases (Preliminaries, Semifinals and Finals) shall be completed and submitted. After submitting each dive sheet, the owner will get a confirmation email with the dive list.

Competitors who qualified for the Semifinal will have 30 minutes after the completion of the preliminary event to change their dives for the Semifinal. The dive change must be done manually through the dive change form completed and signed by the diver and a team representative. Competitors who qualified for the Final have 30 minutes after the completion of the Semifinal to change their dives for the final. This change will also need to be done manually.

#### Data Entry Check

A data entry checklist will be produced and distributed to each team through the Diving Sports Information Desk. Team managers are requested to thoroughly check the list and confirm:

- Athlete entries
- Athlete Name (Print)
- Athlete Name (TV)
- Athlete Name (Scoreboard)

Changes to the information will be accepted by the Competition Management Office at the Technical Meeting.

#### Draws

The starting order for all preliminary Individual Events, preliminary Synchro Events, Mixed Synchro Events and the Mixed Team Event will be determined by an electronic random draw conducted at the Diving Team Leaders' Meeting.

The starting order for all Individual Semifinals and Finals as well as Synchro Events Finals will be based on the reverse order of the results from the previous phase.

#### Call Room

Athletes will be called to the Call Room before the competition, at a time determined by the competition rules, to hand over their accreditation cards to the event organiser. Relevant athletes must wait in the Call Room after finals and before medal ceremonies.

#### Entry and Exit to the Field of Play

During the competition all athletes must enter and exit the Field of Play through the designated athletes' entrance.

The athletes and team members who are not participating in the competition must respect the space to assure that only the competing athletes are in the competition area and follow the guidelines given by the organisers and volunteers.

#### Coaches Area

### Medical Expenses, Insurance & Liability

#### **Health Insurance**

Medical expenses in Singapore can be quite high, so it is **mandatory for each accredited participant to have personal medical insurance** that covers both healthcare and repatriation within Singapore.

World Aquatics' Travel and Accident insurance during events provides only "umbrella" coverage, meaning it is not a health insurance policy. It is designed to complement the participant's personal health insurance if needed.

The World Aquatics insurance should never be relied upon as sufficient coverage on its own.

In fact, if a participant does not have their own coverage, the World Aquatics insurance has a cap, and in cases like expensive repatriation, it would not cover the full costs.

The Medical Service Provider is entitled to request compensation for healthcare services not included in onsite and hotel care, which the user shall pay in cash or by credit card at the location when the service is utilized.

### **World Aquatic Travel & Accident Insurance**

All duly registered and approved attendees will be covered by the World Aquatics Travel & Accident Insurance during their trip to/from Singapore. Such insurance will be effective starting from the time of check-in for the first flight and ending at the moment of return to the country of residence.

In addition, World Aquatics insurance will cover changes, cancellations and re-booking fees of any flight tickets related with the postponement or modification of the return trip. This does not apply to personal changes.

We remind all Federations that World Aquatics' participants travel and accident insurance during events is only an "umbrella" coverage. It serves as a supplementary coverage to the participant's own health insurance in case it is insufficient. The World Aquatics insurance should never be considered as sufficient cover on its own.

### Team Doctors

Team doctors must register in advance with the Singapore 2025 Organising Committee to provide medical services to the members of their delegation during the World Aquatics Championships.

World Aquatics and the Singapore 2025 Organising Committee assume no responsibility for any healthcare provided by NF healthcare personnel to NF team members and delegates.

It is recommended that NF healthcare professionals inform their insurance company that they are traveling abroad with a sport's team, and check whether their professional liability insurance covers this activity. Each NF should make its own arrangements for professional liability insurance.

### Lifeguards

Lifeguards are Singapore Lifesaving Society (SLSS) Certified and undergoing regular training. A minimum of two (2) lifeguards per swimming pool (competition pool or training pool) are required for the duration of the training and competition.

### Other Services

Ice will be available for teams.

## **8. ATHLETES & DEVELOPMENT PROGRAMMES**

In addition to the world-class competitions taking place during the World Aquatics Championships, World Aquatics and the Organising Committee are pleased to announce a comprehensive programme of activities designed to enrich the overall experience for all participants. These activities aim to create a dynamic environment where athletes, coaches, and representatives of National Federations can connect, learn, and share in the spirit of the aquatics community.

Throughout the Championships, a series of dedicated workshops will be offered across the different aquatic sports. These sessions will provide a unique opportunity to dive deeper into the technical, tactical, and developmental aspects of each sport, guided by experts and leading figures in the aquatics world. Coaches will also have the chance to take part in informal discussions and "coach chats" – relaxed settings where they can exchange experiences, ideas, and challenges with their peers in a collaborative and open atmosphere.

For National Federations, specific meetings will be organised to encourage dialogue and foster cooperation among member organisations. These gatherings will be a key moment to align on future goals, share best practices, and strengthen the global aquatics network. A medical seminar will also be held during the event, offering valuable insights into athlete health, injury prevention, recovery, and performance optimisation, led by professionals in sports medicine and science.

To ensure that athletes can recharge and enjoy their time beyond competition, dedicated athlete lounges will be set up at each venue. These lounges will serve as welcoming, comfortable spaces where athletes can unwind, connect with others, and take part in a variety of interactive activities and entertainment options.

A key feature that will unite all these initiatives is the common theme of sustainability. This important value lies at the heart of both World Aquatics and the Organising Committee's vision for the event. From the way workshops are designed, to the materials used, and the messages shared, sustainability will be woven into every aspect of the programme. It reflects our shared commitment to building a responsible future for our sport and our planet.

More information about these activities will be shared as we get closer to the event. We encourage all participants to stay connected and informed through Event Insider, where full details and schedules will be published. We look forward to welcoming you not only to the competition venues, but also to this vibrant and engaging programme running throughout the Championships. Stay tuned!
